

B BERGARA®

2023 INTERNATIONAL PRODUCT LINEUP

AT BERGARA, WE BELIEVE THAT A PRECISION FIREARM REQUIRES THE BEST COMPONENTS AND AN ASSEMBLY PROCESS CARRIED OUT BY INDIVIDUALS WHO ARE THE BEST OF THE BEST AT THEIR CRAFT. WE'VE BUILT A TEAM OF THE WORLD'S MOST TALENTED AND EXPERIENCED FIREARM BUILDERS – FIRST IN THE USA FOR OUR PREMIER SERIES, AND NOW IN SPAIN FOR OUR B-14 SERIES. THE RESULTS ARE EXTREME PRIDE IN BUILDING, AND EXTREME PRIDE IN OWNERSHIP.

A HISTORY OF PRECISION

IT ALL BEGAN SEVERAL YEARS AGO WITH A SMALL LINE OF CUSTOM RIFLES AND ONE TOP-NOTCH CRAFTSMAN, THE FORMER PRODUCTION CHIEF AND CHIEF INSTRUCTOR FOR THE UNITED STATES MARINE CORPS PRECISION WEAPONS SECTION.

As Bergara rapidly grew, we then assembled a hand-picked group.

With the most technically-advanced barrel manufacturing techniques, state-of-the-art machinery, and an unwavering commitment to quality, Bergara Barrels has become the barrel source of numerous top-tier gun manufacturers in both Europe and the United States. Bergara is producing a full line of precision firearms engineered and built to showcase the performance capabilities of our world-class barrels.

Today, these individuals form the core of our production team. They pass on their knowledge and expertise to every new employee, thereby bringing their own real world experience and expertise to every Bergara firearm.

MADE IN OUR FACILITIES

TO PERFORM IN THE FIELD

**EVERY RIFLE STARTS
WITH A PRECISION BARREL**

STEP 1 BARREL STRAIGHTENING

Each Bergara barrel must begin with a straight bar of cylindrical steel. We inspect every bar to ensure it meets our deviation standards.

STEP 2 DEEP HOLE DRILLING

The bar then moves on to a four spindle deep hole drilling machine where a perfect hole is drilled through the entire length of the bar.

STEP 3 BARREL HONING

Three separate honing spindles utilize diamond tipped bits that polish the interior surface of the barrel to a mirror-like finish.

STEP 4 BUTTON RIFLING

A carbide rifling button is drawn through the barrel to produce the rifling grooves at the appropriate twist rate for each caliber. It's the same result that many gunsmiths accomplish by hand lapping.

STEP 5 STRESS RELIEVING

A high temperature heating process realigns the steel molecules ensuring the barrel is free from any stress.

PREMIER SERIES

BUILT BY HAND AND PAIRED WITH OUR WORLD-RENOWNED BARRELS, THE PREMIER SERIES PROVIDES NEAR CUSTOM PERFORMANCE AT PRICES THAT ARE AFFORDABLE TO SERIOUS SHOOTERS. ONLY THE BEST COMPONENTS AND FINEST CRAFTSMEN CAN BE USED TO CREATE A RIFLE LINE THIS RELIABLE AND ACCURATE.

FEATURES

- | | |
|-------------------------------|--|
| BERGARA PREMIER ACTION | <ul style="list-style-type: none"> • Premium stainless steel with Cerakote® finish • 2 locking lugs located on the front of the bolt head • Separate "floating" bolt head assures contact with lug abutments • Cone-shaped bolt nose assures smooth feeding • Sliding plate extractor • All new models feature a dual ejector • 1-piece stainless steel bolt body with threaded-in bolt handle • 90° bolt throw angle • Bolt shroud is bayonet style allowing access to the firing pin assembly. Simply twist the bolt shroud and the entire firing assembly can be removed without tools |
| BERGARA BARREL | <ul style="list-style-type: none"> • Made from premium carbon fiber or stainless steel • Carbon fiber or Cerakote® finish • Guaranteed to produce sub-MOA groups at 100 yards using quality factory ammunition |
| TRIGGER | <ul style="list-style-type: none"> • Externally adjustable TriggerTech® triggers and Frictionless Release Technology™ as standard equipment |
| SAFETY MECHANISMS | <ul style="list-style-type: none"> • The 2-position safety is part of the trigger assembly. It allows the rifle to be unloaded while in the safe position • Non-rotating gas shield behind the bolt head protects the shooter from gas and debris in the event of a case or primer rupture |

SPOTLIGHT

“ JOE EDLINGTON // MOUNTAIN 2.0

NEW ZEALAND, TAHR

In New Zealand we have wilderness that is true to its name, it's wild, it's tough, and it's unforgiving on your physical wellbeing and the gear you decide to bring with you.

I spend over 6 months of the year hunting in the most wild and remote areas. I search for a wide variety of 'bucket list' game species that are high on the list for many hunters worldwide.

I bring my Bergara Mountain 2.0 on these expeditions. It's ultra-light-weight design and attention to detail for its build quality and components are what make this rifle 'my choice' for the big wilderness hunts I do.

Correct gear choice is paramount for these types of hunts. I have complete faith in the Mountain 2.0 performing for me when I need it most.

SPOTLIGHT

PEDRO AMPUERO // CREST

GREDOOS, SPAIN IBEX

Some of us feel a huge attraction to traveling around the world and discovering new countries, new species, and new cultures. Spain is one of the most amazing destinations for hunting. The hunting tradition and passion of my home country is what brings hunters all around the world every year.

We have to go through a lot to get the opportunity we have been searching for, and after investing a lot of time and effort there is nothing worse than questioning your shot, or doubting if the rifle was able to handle all that beating.

I have always looked at my rifle as another piece of equipment, it can not fail. The rifle is there to help me, not to give me more problems than the ones I have. When you find out about the rifle manufacturing tradition of Spain, and the background building precise and reliable rifles of Bergara, that doubt goes away, and you trust it like it was your own rifle.

SPOTLIGHT

“ **BRIAN STEPHENS // WILDERNESS HMR CF**
TEXAS AUODAD

Just a few miles from the Mexico border I was introduced to a terrain so challenging, yet beautiful. I had not yet hunted Aoudad, and found myself walking for miles, climbing cliffs, slipping and falling at times trying to get to this shooter Aoudad we had seen.

Through this rugged environment I noticed just how tough this rifle is, along with how well it carried on my shoulder.

When we finally got to within 200 yards of this big ram, I squeezed the trigger. I knew that bullet was going to hit its target. ”

B-14 EXTREME SERIES

CONCEIVED FOR GUARDS IN REMOTE PARTS OF THE WORLD WHO NEED AN AFFORDABLE RIFLE FOR PROTECTION IN EXTREMEST CONDITIONS OF RAIN, SNOW AND SALTY WINDS. THE B14 EXTREME SERIES HAS BECOME A POPULAR CHOICE AMONG HUNTERS AROUND THE WORLD FOR BEING A LIGHT-WEIGHT, SHORT, EASY-TO-MAINTAIN AND EXTREMELY RELIABLE. A TRUE CONFIGURATION THAT SHOULD BE PRESENT IN EVERY GUN SAFE.

FEATURES

BERGARA B-14 ACTION

- Spring-loaded ejector
- Side-mounted bolt stop
- One-piece body with two locking lugs
- 90° bolt throw angle
- Cone-shaped bolt nose ejector - assures smooth feeding
- Sliding plate extractor
- Detachable magazine

BERGARA BARREL

- Made from 410 ISI stainless steel
- Graphite Black Cerakote® / Stainless Grey Cerakote® / Coyote Tan Cerakote®
- Sub MDA accuracy guarantee

TRIGGER

- Adjustable Bergara Performance Trigger

SAFETY MECHANISMS

- The two position safety is part of the trigger assembly. It allows the rifle to be unloaded while in the safe position.

SPOTLIGHT

“ MARTIN BIE-ERICHSEN // EXTREME HUNTER
NORWAY GOOSE

We arrived at the fields as the sun was rising and spotted the first geese of the day, grassing at the edge of a large field. My son knew the drill as he tagged along for this hunt.

We positioned ourselves under some pines. The goose is only 95 meters, a comfortable distance for such a small target. Especially when we are used to taking these shots at 180 meters or further. I rig my B14 Extreme up and warn my 2-year-old that a shot is coming. Everything felt right.

It might just be a goose, but the conversation with my son as we walked towards our kill, made it feel like we just shot the stag of our lifetime.

SPOTLIGHT

“ NICK TREHEARNE // B-14 HMR
ALBERTA COYOTE

When winter hits in Canada, it's time to help the deer out and we switch to predator control. The harsh winter climates are hard enough on the deer as it is. This is a task that we don't take lightly and that's why we rely on the Bergara B-14 in a 22-250. It was -20 to -30°C during the day and when the dogs came into the call, we didn't want to mess up an opportunity. It was hard enough on us being out there as it is. That's why we trust Bergara - any dog that came into the call didn't have a chance.

SAFETY MECHANISMS

- Compact Synthetic design or Thumbhole stock in black color, Strata camo or green colour

SPOTLIGHT

“ AL LOUANGKETH // BA13 THUMBHOLE
BLACK FOREST, GERMANY BOAR

The morning sun was slowly evaporating the moisture from the ground, creating a foggy mist that was getting thick around me, suddenly I heard some twigs snapping in the thick pine groves.

The cautious snapping of the twigs tells me it was moving to a small clearing. I gently picked up my BA13 and eased to a comfortable shooting position. Suddenly, I noticed a dark shadow appearing out of the thick pine. There he is! One of the biggest boars I've ever seen in my forest coming out into the clearing thirty meters away!

I pulled the hammer back on my BA13. Just as he stopped, he dropped when the hammer fell. The Black Forest beast laid still at my feet. ”

RIMFIRE SERIES

MANUFACTURING HIGHLY ACCURATE RIMFIRE BARRELS IS NOT NEW TO US. WE'VE BEEN DOING IT ON AN OEM BASIS FOR WELL OVER A DECADE. WE'VE COMBINED THREE DISTINCT PLATFORMS, EACH DESIGNED FOR VERY DIFFERENT NEEDS, TO FORM OUR RIMFIRE SERIES. PLINKERS, HUNTERS, AND EVEN LONG RANGE RIMFIRE COMPETITORS REAP THE BENEFITS, UPGRADES, AND CROSS COMPATIBILITY FOUND IN THESE RIFLES. THE ONE THING THEY ALL HAVE IN COMMON - NOTHING LESS THAN PERFECTION.

FEATURES

PROPRIETARY RIMFIRE ACTIONS

- Specialty rimfire actions
- Match Grade chambers
- Detachable magazines
- Left-Handed Available on B-14R

BERGARA BARREL

- Made from 4140 CrMo Steel
- Matte blued finish
- Carbon barrel options available

TRIGGER

- Bergara Performance Trigger

STOCK

- Bergara HMR stock, Adjustable cheek, Free-floated (B-14R)
- QD Cups and Swivels (BMR Swivel only)

SPOTLIGHT

LEWIS MACFARLANE // BMR CARBON
UNITED KINGDOM SQUIRREL

With the colder winter days here, the squirrels are foraging for winter stores. This is one of the best times of year to garner their interest in the squirrel feeders.

I generally top them off with a variety of nuts and maize mix, overlooked by a popup blind some 50 yards away. These are a great bit of kit to stay comfortable and hidden from the squirrels.

Once they get used to the food source and the blind, which is set up a day or two before, all I need do is slip into the blind before first light, load up the BMR, sip some coffee and wait patiently for the squirrels to arrive.
